

**Public Transportation (20 - 40w)**

Indira Gandhi International Airport (DEL) is 31 km from the city center and there are a wide range of public transportation options to get to the city. The best of these is probably the metro, which leaves from terminal three and costs about 0.10 euros.

**Taxi (20 - 40w)**

The amount of time a taxi journey to the city center from Indira Gandhi International Airport takes really depends on traffic, but on open roads it can be as short as 20 minutes. The fare will be around 3 euros, but again this can vary depending on the time it takes.
