

Public Transport

Accra city center is 10 km from the airport and cannot be reached by public transport.

Taxi

The only way to get from the airport to the city center is by taxi. However, as the taxi drivers don't use a meter, you need to agree a price with them beforehand. If you are prepared to bargain, you can get to the city center for around 30 Ghanaian cedi. The journey takes around 40 minutes depending on traffic conditions.
